**SUBJECT:**—Licensing of Domestic Sewing Machines falling under Serial No. 287 of Part IV of the Import Trade Control Schedule in the July—December 1951 period.

**No. 123-ITC(P.N.)/51.**—The attention of importers is invited to the remarks against Serial No. 287 of Part IV of the Import Trade Control Schedule in Appendix 'B' attached to the Commerce and Industry Ministry Public Notice No. 105-ITC(P.N.)/51, dated the 15th June 1951.

2. It has been decided that soft currency licences for the import of domestic sewing machines falling under Serial No. 287 of Part IV will be granted only to established importers during the July—December 1951 licensing period on the basis of quota of 40 per cent. of half of best year's imports.

3. Applications for licences should be made to the Import Trade Controllers at the ports in the manner indicated in para. 11 of Part II of the 'Red Book' for July—December 1951.

*New Delhi, the 26th July 1951*

**SUBJECT:**—Licensing procedure for Cotton Textile Machinery and component parts falling under Serial Nos. 4 and 5 of Part III of the Import Trade Control Schedule which are to be dealt with under the Capital Goods Scheme.

**No. 124-ITC(P.N.)/51.**—The attention of the importers is invited to para. 2 of Appendix D in the "Red Book" for the period July—December 1951, which deals with the application of the Capital Goods Scheme to Cotton Textile Machinery and component parts thereof. The schedule attached to this Public Notice should be substituted for the schedule referred to in the said paragraph.

2. Applications for import licences for this class of Capital Goods will continue to be made to the Deputy Chief Controller of Imports (Capital Goods), Bombay, in the usual form and manner.

3. The following important points are however, brought to the notice of intending applicants:—

(i) Applications for productive machinery as indicated in the annexed Schedule, will not be entertained from applicants who are not consumers or promoters having an allotment under the Post-War Expansion Plan.

(ii) Applications for non-productive machinery will not be entertained from applicants other than consumers, unless their applications are supported by firm orders from actual users.

(iii) Applications for Hosiery and Knitting machines will be considered from consumers or from other importers against orders from consumers, provided such consumers produce the required evidence of availability of the necessary yarn supply.

4. A separate Public Notice will issue in regard to the licensing policy for the July—December 1951 period, in the case of:—

- (a) Complete Ring Frames,
- (b) Spare parts of Ring Frames including Spinning Rings, Spindles, Fluted Rollers, Tin Rollers and other spare parts,

# **MINISTRY OF WORKS, PRODUCTION AND SUPPLY**

## RESOLUTION

*New Delhi, the 4th August 1951*

**No. Salt-18/5/50.**—In April 1948, the Government of India had set up a Salt Experts Committee under the Chairmanship of Shri P. A. Narielwala to advise Government on measures necessary to place the Salt Industry on a sound footing. The Committee started work soon after its formation and visited 25 important salt producing areas in the country, viz., the Marine Salt Works on the sea board of India, the Inland Salt Works in Rajasthan and other areas, and the Rock Salt Mines of Mandi (Himachal Pradesh). The visits of the Committee to the different producing centres had to depend upon the season and were arranged during the fair weather so as to coincide with the period when manufacturing operations were in actual progress. The Committee submitted its final report in May 1950. The report contains 286 recommendations relating to—

- (1) general principles for the production of solar salt on scientific lines;
  - (2) improvements to be effected in the Government Salt Works of Sambhar, Didwana, Pachbadra and Kharaghoda;
  - (3) development of the Mandi Salt Mines;
  - (4) improvements in the private salt works of Saurashtra, Kutch, Bombay, Travancore, Madras, Orissa and West Bengal;
  - (5) investigations to determine the possibility of salt production in Bharatpur (Rajasthan), Great Rann of Kutch and Sultanpur (Punjab),
  - (6) general problems concerning the Salt Administration of the country;
  - (7) establishment of model factories and Research Stations; and
  - (8) control of quality.

2. The Government of India have examined the recommendations of the Salt Experts Committee and have so far accepted 119 recommendations. The more important of the accepted recommendations are the following.—

- (i) Calibration of Baume hydrometer to suit Indian conditions;

(ii) Investigation of the possibility of tapping subterranean brine in places where rain-fall is high;

- (iii) To discourage the process of manufacture by artificial evaporation in open pans and to have recourse to the Vacuum evaporator system for producing salt of high grade variety;
  - (iv) To ban the sale of salt by measure;
  - (v) To abolish the system of marketing salt through the registered dealers at Sambhar and Kharaghoda;
  - (vi) To increase the advances to the Kharwals for the renovation of the salt pits at Pachbadra;
  - (vii) To carry out a geological survey of the Mandi mines with a view to locating fresh deposits of rock salt;
  - (viii) The offer made by Messrs. Escher Wyss & Co. of Switzerland for determining the best method of exploiting the Mandi Salt deposits and drawing up a general lay-out and plan for a suitable evaporator plant at a cost of Rs. 12,000/- should be accepted and they may be asked to submit their recommendations as early as possible;
  - (ix) To consider the possibility of saving the Kandla salt works from being acquired on account of the development of Kandla as a major port;
  - (x) To continue the Zonal System of Distribution as already introduced by the Salt Department and to effect adjustments wherever necessary to reduce the maximum lead to 750 miles;
  - (xi) To suspend payments under treaty rights to the States as compensation for suppression of salt manufacture, etc.;
  - (xii) To set up a Salt Advisory Committee representing the Government, manufacturers, consumers and importers.

3. The following are some of the important recommendations which are still under the consideration of Government—

- (i) To modify the present organisation of the Salt Department into a Development Department;
  - (ii) To levy a uniform cess of -/- per maund on all salt produced in the country or imported from outside;
  - (iii) The heavy chemical industry, especially the alkali industry, should be allowed a rebate equal to the cess collected on the salt it actually consumes;
  - (iv) The management of Government salt works should be entrusted to a Statutory Corporation in order to obtain satisfactory control and supervision of these works. Such a Corporation should be jointly owned by the Governments of India and Rajasthan;
  - (v) The present terms under which licences for the manufacture of salt are issued are rigorous and should be revised and simplified;
  - (vi) To adopt a simplified procedure for collection of cess and to reduce the present elaborate staff for collection purposes;
  - (vii) Consolidation of small holdings into economic units or expansion into economic units and their realignment;
  - (viii) To set up model factories in principal salt producing centres;
  - (ix) To raise the minimum sodium chloride content as prescribed in the draft specifications of the Indian Standards Institution from 96 per cent. to 97.5 per cent. and to prescribe the maximum permissible limit for the common impurities present in the salt;
  - (x) To collect samples systematically from the various factories and to have them analysed and to denature or destroy any salt found to be below the standard.
